```java
    final String saveFile = "numberGuesserSave.txt";
    // added these variables
    private int winner = 0;
    private int loser = 0;
    private int played = 0;
    private int lives = 5;
    private String endGame = "quit";
CodeTogether...
    /***
```

```java
private void win() {
    System.out.println("That's right!");
    // used variables here
    winner++;
    played++;
    level++;// level up!
    saveLevel();
    strikes = 0;
    System.out.println("Welcome to level " + level);
    // added these statements
    System.out.println("You have " + lives + " lives left");
    System.out.println("You have played " + played + " game(s) and won " + winner + " ga
    number = getNumber(level);

}
```

```java
private void lose() {
    System.out.println("Uh oh, looks like you need to get some more practice.");
    System.out.println("The correct number was " + number);
    // added variables and if statement here
    lives--; // this vaiable and this statment
    System.out.println("You have " + lives + " lives left.");
    if (lives < 1) {
        System.out.println("Game Over, You have " + lives + " lives left.");
        processCommands(endGame);
    }
    loser++; //
    played++; //
    strikes = 0;
    level--;
    if (level < 1) {
        level = 1;
    }
    saveLevel();
    // added this statement
    System.out.println("You have played " + played + " game(s) and lost " + loser + " g
    number = getNumber(level);
}
```

```java
private void processCommands(String message) {
    if (message.equalsIgnoreCase("quit")) {
        System.out.println("See you next time."); // changed the string statement
        isRunning = false;
    }
}
```

You have 2/5 attempts remaining
Higher
1
You guessed 1
That's wrong
You have 1/5 attempts remaining
Higher
1
You guessed 1
That's wrong
Uh oh, looks like you need to get some more practice.
The correct number was 6
You have 3 lives left.
You have played 4 game(s) and lost 2 game(s).
I picked a random number between 1-10, let's see if you can guess.
5
You guessed 5
